

**Ford Model A Oldtimer meeting at the Technikmuseum Freudenberg** *Friday, 05. July 2019 (arrival day) Saturday, 06. July 2019 (all-day tour) Sunday, 07. July 2019 from 10 am to 5 pm (vintage car show at the museum)*

After the great success of the first Ford A Oldtimer meeting in the past year, there will also be a meeting of the most well-known pre-war classic cars again in 2019. The owners of Ford A vehicles are invited to take part. The goal is to bring together as many vehicles and owners as possible. In particular, all Ford A vintage cars of the years of construction 1927 - 1931 are welcome. But also T models and 1932 B models can also participate in the event. The arrival of the participants is scheduled for Friday, July 5, 2019. There will be a tour on Saturday, July 6, 2019. On Sunday, 07. July 2019, the vehicles will be presented as part of a classic car show around the Technikmuseum Freudenberg. The event officially ends Sunday afternoon at 17:00. An entry fee is not charged. An informal registration is requested for the purpose of organization. E-Mail: [pressestelle@technikmuseum-freudenberg.de](mailto:pressestelle@technikmuseum-freudenberg.de) or Tel.: 0171-5458618. Contact person is: Alexander Fischbach

More Information: [www.technikmuseum-freudenberg.de](http://www.technikmuseum-freudenberg.de)

**Friday, 05. July 2019** Friday is arrival day. For the early arriving participants coffee and cake will be served in the Technikmuseum Freudenberg from 2pm onwards. There will be enough time to unload the vehicle from the trailer, to park and check in at the hotel. The same applies, of course, to the participants who have driven there. Starting at 19:00, a pleasant evening will take place in the premises of the Museum of Technology under Ford A friends.

**Saturday, 06 July 2019** Saturday is marked by a vintage car tour. At 9:00 am, the participants will meet at the Museum of Technology. At 9:30 am, the starting flag will be raised. The route leads over small side roads and country roads along beautiful scenery through the Bergische Land. We end up at our destination for the lunch break; the LVR Freilichtmuseum Lindlar. At 14:00 clock we start to continue, which leads us over small lanes to our afternoon destination. At 17:00 we will arrive back in Freudenberg. Now there is enough time to safely stop the vintage cars and take a breather. From 19:00 clock we meet in the hotel to the old town to spend a nice evening together among like-minded people and with good food.

**Sunday, 07. July 2019** Sunday is completely dominated by the presentation of vintage cars. The participants will meet at 10:00 am on the grounds of the Technikmuseum Freudenberg. An interesting program awaits the participants and visitors of the meeting. Our instructors will ensure a stress-free day and escort you to your pitch. In addition to the presentation of the vehicles, the entire museum is in action: the blacksmiths demonstrate their craftsmanship with skilful hammer blows in the in-house forge. The more than 100-year-old "Mechanical Workshop", powered by a Möller steam engine -lets us guess what it looked like 100 years ago in Ford's factories! At the more than 250-year-old looms Weberinnen and Weber demonstrate an important branch of industry in the Siegerland region while on the upper floor of the museum lectures on the A model are being held for visitors and participants.

This year there will be more interesting lectures and technology demonstrations on the subject of Ford A for vintage car owners. For example, the restoration of a radiator and much more.

For the young and young at heart, not only model steam engines are in action, but also the large garden railway invites to ride. Live music brings the sound of bygone times to life and, of course, the fun side of things won't be neglected on this day either. At about 17:00 clock ends the event. An earlier departure is of course possible.

**Registration Information & Costs:** Participation in the event is free of charge for classic car owners. That means: There is **no entry** fee. However, the participants are self-payers for the entire weekend. Costs for accommodation, meals, entrance fees (external during the tour) are to be borne by the participants themselves. The organizer strives for a cost-conscious planning, so that participation in the event will be possible for everyone.

Spontaneous visits with the classic car are welcome. Nevertheless, it is very important for us to

know how many participants we have to expect. This applies in particular to the arrival day 05.07.2019 and the exit on Saturday, 06.07.2019. We therefore ask for a short registration by e-mail: [pressestelle@technikmuseum-freudenberg.de](mailto:pressestelle@technikmuseum-freudenberg.de) or by phone 0171-5458618. The contact person is again Alexander Fischbach. It is also possible to register several vehicles per participant. Please also indicate on which day you will arrive.

**Arrival and parking of transport vehicles:vehicles** An arrival or the parking of the participants is already possible on Friday, 05. July 2019. The meeting point is: Technikmuseum Freudenberg Olper Straße 5 57258 Freudenberg Tel .: 02734-3248 or 0171-5458618 (Alexander Fischbach) [www.technikmuseum-freudenberg.de](http://www.technikmuseum-freudenberg.de)

[pressestelle@technikmuseum-freudenberg.de](mailto:pressestelle@technikmuseum-freudenberg.de) ATTENTION: When entering GPS navigation instructions, please enter 57258 directly Freudenberg (Zentrum) or follow the signs Freudenberg at Freudenberg motorway exit, even if your navigation system wants to guide you on another route. Trailers and towing vehicles can be parked in the immediate vicinity of the museum in the second car park of the museum. Distance to the museum about 100 meters. Parking of classic cars is possible both at the hotels and at the Museum of Technology. Open vehicles can be parked in the hall of the museum as long as the space permits.

**Hotels:** The event hotel is the hotel for the Old Town (here the Ford A Friendship evening takes place on Saturday evening). There are 25 rooms reserved. Please secure a room in a timely manner. When booking, refer to the Ford A Oldtimer meeting under reservation no. 16358.
